

Interested in circular economy?

LAG Skånes Ess (Sweden) and LAG LEADER Sydöstra Skåne (Sweden) are searching partners for a transnational project exchanging experiences in circular economy and environmental-friendly solutions.

Objective

To increase knowledge and awareness about circular economy and its potential in rural areas.

When?

Autumn 2019-summer 2021

Activities (suggestions)

- One programme in each country with visits to companies, farms and organisations implementing circular economy, local economy or innovative environmental-friendly solutions.
- Social media reports
- Seminar/workshop presenting and sharing new knowledge locally.

Possible cases in Sweden

- Gårdsfisk (integrated farm and aquaculture with the vision to produce the world's most sustainable fish)
- Simris (electricity self-supporting village)
- Norups gård (bioenergy farm)
- Byggnadsvård (cultural heritage – recycling of materials and caring for old buildings)
- Hållbart byggande Syd (NGO, sustainable construction)
- Krinova incubator and science park – support for entrepreneurs and innovation

Target groups

- Small and medium-sized enterprises
- Communities
- Students/youth (+18) with environmental interests

Definition Circular Economy (Ellen MacArthur Foundation)

A framework for an economy that is restorative and regenerative by design

It is based on three principles:

- Design out waste and pollution
- Keep products and materials in use
- Regenerate natural systems
